

NEFLHCC Project Submission Form 2018-19

Please submit completed applications to Beth Payne, epayne@nefrc.org

Project Title			
Requesting Agency			Are you a member of the NEFLHCC? Yes No
Point of Contact Include name, organization, address, phone and e-mail address			
Project Category Check appropriate option	Training/Education	Exercise	New Project Application
	Supplies/Equipment	Other	Re-submittal If yes, provide date submitted?
Funding Requested Please attach an itemized budget for total cost - be as detailed as possible			
Project Description & Details			
Project Description Provide a detailed description, including specific information on the deliverables and/or end state of the project.			
Identified Gap: Provide documentation of Coalition identified gap – from Coalition specific Risk Assessment, Vulnerability Analysis, Preparedness Plan, Training & Exercise Plan, etc. http://www.neflhcc.org/Coalition-Plans.html			
Gap Analysis Details: How will this gap be addressed by this project			

<p>Impact/Benefit: Please describe how the six county Healthcare Coalition will benefit from this project.</p>	
<p>2017-2022 Health Care Preparedness & Response Capabilities Which capability does your project address? You may choose more than one if applicable. Descriptions of each capability are attached.</p>	<p style="text-align: center;">Foundation for Health & Medical Readiness</p> <p style="text-align: center;">Health Care & Medical Response Coordination</p> <p style="text-align: center;">Continuity of Health Care Service Delivery</p> <p style="text-align: center;">Medical Surge</p>
<p>Project Justification: How does this project address the above capability?</p>	
<p>Additional Information: provide other details as needed</p>	
<p>Please provide the timeframe to complete the project. Please confirm the ability to complete the project by June 1, 2019.</p>	
<p>Letters of Support: Please provide letter(s) of support from County ESF 8 Partners.</p>	

*****For NEFLHCC Administrative Use Only*****

Date Submitted:

Notification to Agency of Receipt:

2017 – 2022 Health Care Preparedness and Response Capabilities

These four capabilities were developed based on guidance provided in the *2012 Healthcare Preparedness Capabilities: National Guidance for Healthcare System Preparedness* document. They support and cascade from guidance documented in the *National Response Framework*, *National Preparedness Goal*, and the *National Health Security Strategy* to build community health resilience and integrate health care organizations, emergency management organizations, and public health agencies.

Capability 1: Foundation for Health Care and Medical Readiness

Goal of Capability 1: The community's health care organizations and other stakeholders—coordinated through a sustainable Health Care Coalition —have strong relationships, identify hazards and risks, and prioritize and address gaps through planning, training, exercising, and managing resources.

Capability 2: Health Care and Medical Response Coordination

Goal of Capability 2: Health care organizations, the Health Care Coalition, their jurisdiction(s), and the ESF-8 lead agency plan and collaborate to share and analyze information, manage and share resources, and coordinate strategies to deliver medical care to all populations during emergencies and planned events.

Capability 3: Continuity of Health Care Service Delivery

Goal of Capability 3: Health care organizations, with support from the Health Care Coalitions and the ESF-8 lead agency, provide uninterrupted, optimal medical care to all populations in the face of damaged or disabled health care infrastructure. Health care workers are well-trained, well-educated, and well-equipped to care for patients during emergencies. Simultaneous response and recovery operations result in a return to normal or, ideally, improved operations.

Capability 4: Medical Surge

Goal of Capability 4: Health care organizations—including hospitals, EMS, and out-of-hospital providers—deliver timely and efficient care to their patients even when the demand for health care services exceeds available supply. The Health Care Coalition (HCC), in collaboration with the ESF-8 lead agency, coordinates information and available resources for its members to maintain conventional surge response. When an emergency overwhelms the HCC's collective resources, the HCC supports the health care delivery system's transition to contingency and crisis surge response and promotes a timely return to conventional standards of care as soon as possible.
