SURGEON GENERAL'S PRIORITIES

Florida's 5 STEPS to Prevent COVID-19

1 STOP INTRODUCTION

Stop Introduction into Florida from out of state.

2 TEST, TEST, TEST

Leverage testing capabilities & work to expand capacity.

3

ELDERLY & VULNERABLE PROTECTION

Protect the elderly by increased mitigation and messaging at assisted living centers, nursing homes, and other special facilities.

4

PREPARE HOSPITALS

Assess the potential impacts and course of action for hospitals and bed capacity.

5

SOCIAL DISTANCING

Continue to message social distancing.

[Executive Order #20-91 Safer at Home](#)

Governor Desantis's Executive Order #20-91 is in effect and expires April 30

Governor Desantis's Reopen Florida Plan: Facts not Fear

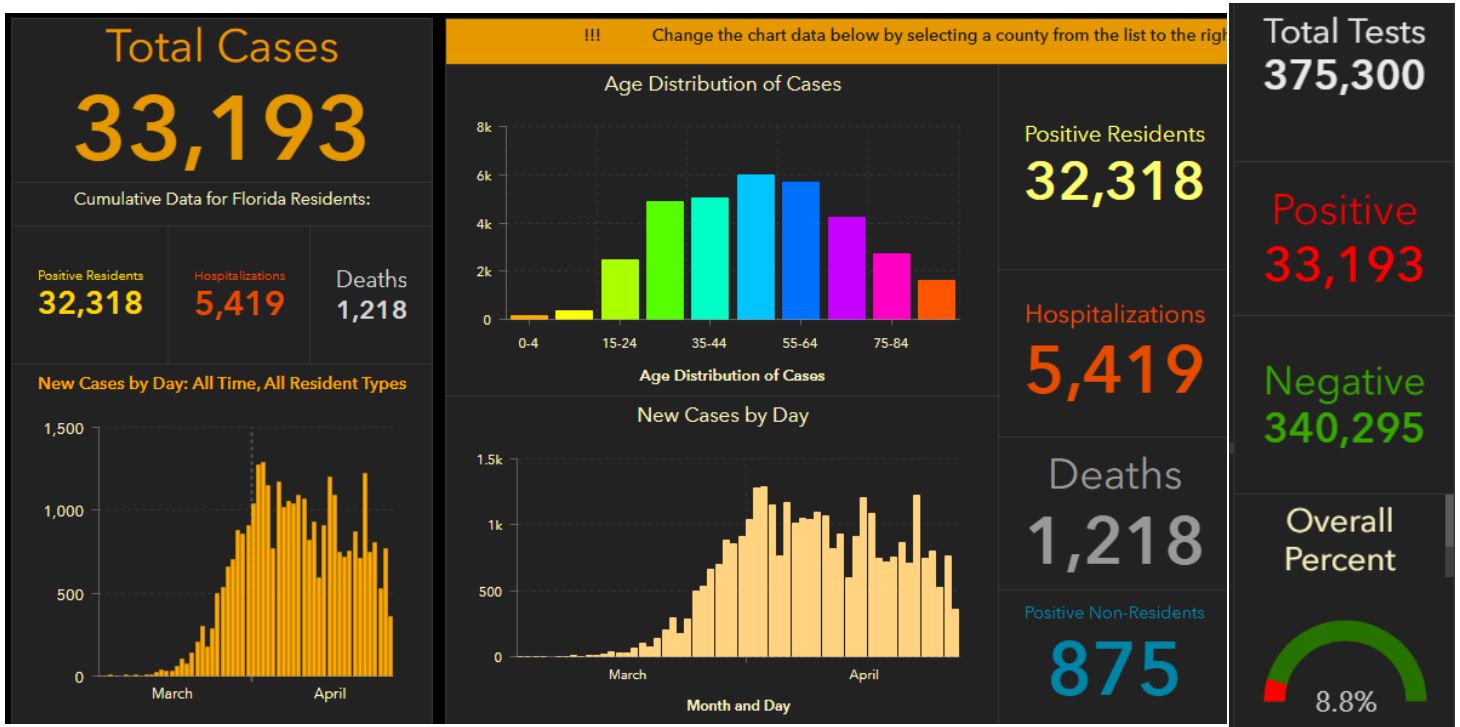

The reopening plan applies for Florida counties except Palm Beach, Miami-Dade and Broward counties

Phase 1 begins Monday, May 4:

- Schools must keep distance learning
- Visits to senior living facilities are prohibited
- Elective surgeries can resume
- Restaurants may offer outdoor seating with six feet of space between tables
- Indoor seating at restaurants must be at 25% capacity
- No change for bars, gyms and personal services, like hair dressers
- Vulnerable individuals should avoid close contact with people outside the home
- Everyone should maximize physical distance from others while in public
- Avoid socializing in groups of more than 10 people in circumstances that do not "readily allow for physical distancing"
- Face masks are recommended for those in face-to-face interactions and where you can't social distance.

Key metrics to consider before the state moves to Phase 2:

- The state maintains the health benchmarks of the "Safe. Smart. Step-by-Step Plan"
- Maintaining hospital bed capacity
- Monitoring COVID-19 test positivity rate

Battelle PPE Decontamination Unit SOG Located in Miami-Dade County

Battelle has deployed a decontamination unit in coordination with FEMA and Defense Logistics Agency at no cost to the entities in the State of Florida. This unit can decontaminate **non-cellulose N95 masks only**.

Respirators (N95s) can be decontaminated up to 20 times, however they must not be visibly soiled (free of blood, mucus, makeup, lip balm, etc.) or damaged. If N95s are visibly soiled or damaged, they will be discarded.

Below are instructions in order participate in this process:

Hospitals	
Defined as	Hospitals within the State of Florida
Mandatory First Step: Signup Process	Hospitals must Sign a Service Agreement. These services are provided at no cost. Navigate to the link below to begin this signup process: https://www.battelle.org/inquiry/offerings-and-services/covid-response
	After signing the service agreement, a three-digit code will be assigned to your facility. After signup, Cardinal Health will also follow-up with hospitals to coordinate N95 mask pickup.
Sending N95s to be decontaminated	<ol style="list-style-type: none"> 1. Identify N95s to be decontaminated and write the three-digit code assigned to your facility on the masks. 2. Pack N95s in a plastic bag (this does not need to be a biohazard bag). Place in another plastic bag to double bag the masks. Clean the outside of the external bag with disinfectant. 3. Put the bag in the box and label the box with the three-digit code and a biohazard sticker (to be provided by the entity it is being picked up from). 4. Cardinal Health Courier Service will pick up items and take them to be decontaminated. 5. Items will be decontaminated and is expected to be curried back to the facility within 72 hours. When they are returned to your facility, Battelle will write a tally on the masks to track how many times they have been decontaminated.

Government Entities	
Defined as	Non-hospital entities within the county, to include law enforcement, fire rescue, EMS, etc.
Mandatory First Step: Signup Process	Each entity must Sign a Service Agreement. These services are provided at no cost. Navigate to the link below to begin this signup process: https://www.battelle.org/inquiry/offerings-and-services/covid-response
	After signing the service agreement, a three-digit code will be assigned to your facility. You will need to designate a point of contact for your facility.
Sending N95s to be decontaminated	<ol style="list-style-type: none"> 1. Identify N95s to be decontaminated and write the three-digit code assigned to your facility on the masks. 2. Pack N95s in a plastic bag (this does not need to be a biohazard bag). Place in another plastic bag to double bag the masks. Clean the outside of the external bag with disinfectant. 3. Put the bag in the shipping box and label the box with the three-digit code. 4. Your designated point of contact for your facility will receive prepaid FedEx and Biohazard labels from Battelle, that must be taped to the box in order to ship masks. 5. Send via FedEx. 6. Items will be decontaminated and shipped back to the facility within 72 hours. When they are returned to your facility, Battelle will have written a tally on the masks to track how many times they have been decontaminated.
